## PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building scalable web applications, RESTful APIs, and real-time user interfaces. Specializing in React.js, Laravel, Node.js, and TypeScript. Proven track record of optimizing performance (reducing API response times by 40%), mentoring developers, and delivering enterprise-grade solutions across e-commerce, logistics, and SaaS platforms.

## TECHNICAL SKILLS

### Frontend

React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, Tailwind CSS, Bootstrap, Responsive Design

### Backend

Node.js, Express.js, PHP (Laravel, Eloquent ORM), RESTful APIs, GraphQL, Authentication & Authorization (JWT, Sanctum, Passport)

### Database

MySQL, PostgreSQL, SQLite, MongoDB, Database Schema Design

### DevOps & Cloud

AWS, Vercel, Netlify, CI/CD Pipelines (GitHub Actions), Docker

### Tools & Testing

Git, Postman, PHPUnit, Jest, Composer, npm/yarn

### Security & Best Practices

XSS/CSRF/SQL Injection Prevention, RBAC, Agile/Scrum

## PROFESSIONAL EXPERIENCE

### Full-Stack Engineer | Kudicore

2024 – 2026

- Build scalable APIs using Node.js/Express and Laravel for fintech applications
- Apply Eloquent ORM and TypeScript for clean, maintainable codebases
- Maintain CI/CD pipelines ensuring smooth deployments across environments

### Full-Stack Engineer | MSSPACE

2024

- Created responsive, visually appealing UIs with Tailwind CSS and React.js
- Implemented role-based access control (RBAC) for secure user/admin workflows
- Integrated third-party services including payment gateways and notification systems

### **Full-Stack Engineer | Motor Africa**

2022 – 2024

- Built dynamic, reusable React.js components enhancing UX across multiple SaaS platforms
- Designed and implemented secure REST APIs in Laravel supporting real-time data fetching
- Optimized database queries and API integrations, reducing response times by 40%
- Refactored legacy codebases to improve performance and maintainability
- Collaborated with cross-functional teams to design scalable backend solutions

### **Full-Stack Developer & Trainer | Bizmarrow Technologies**

2020 – 2021

- Researched emerging web technologies and recommended system improvements
- Trained clients on modern web development practices and tools

### **ICT Trainer | HIIT**

2021

- Conducted training sessions on web development fundamentals

### **Corp Member (IT) | ECWA Theological College, Kano**

2019 – 2020

- Managed computer equipment and provided technical support during NYSC service year

### **Junior Web Developer (Intern) | Quanteq Technology Services**

2015 – 2016

- Wrote clean, reusable code and updated web content for client projects
- Participated in web development training classes for clients

## **EDUCATION**

### **Bachelor of Science in Computer Science**

Federal University Lokoja, Kogi State

Second Class Upper Division | Graduated 2019

## **FEATURED PROJECTS**

- <https://naijalmart.com/> - An e-commerce platform built with Laravel and Next.js, enabling seamless online shopping and product management.
- <https://sandbp.net/> - A certification body portal built with Laravel, enabling secure document and certification workflows.
- <https://www.msspaceglobal.com/> - A certification body platform developed with Next.js, streamlining certification and credential management.

- <https://grosolar.co/> - A fintech platform using Next.js and Node.js, facilitating solar energy financing, loan disbursement and payment solutions.
- <https://primeprogressng.com/> - A blog platform developed with Laravel, providing content publishing and management features.
- <https://onemall.ng/> - A modern e-commerce marketplace built with Laravel and Next.js, connecting customers with Plazzas, Shops, and Sellers in one convenient online marketplace.
