PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience building scalable web applications, RESTful APIs, and real-time user interfaces. Specializing in React.js, Laravel, Node.js, and TypeScript. Proven track record of optimizing performance (reducing API response times by 40%), mentoring developers, and delivering enterprise-grade solutions across e-commerce, logistics, and SaaS platforms.

TECHNICAL SKILLS

Frontend

React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, Tailwind CSS, Bootstrap, Responsive Design

Backend

Node.js, Express.js, PHP (Laravel, Eloquent ORM), RESTful APIs, GraphQL, Authentication & Authorization (JWT, Sanctum, Passport)

Database

MySQL, PostgreSQL, SQLite, MongoDB, Database Schema Design

DevOps & Cloud

AWS, Vercel, Netlify, CI/CD Pipelines (GitHub Actions), Docker

Tools & Testing

Git, Postman, PHPUnit, Jest, Composer, npm/yarn

Security & Best Practices

XSS/CSRF/SQL Injection Prevention, RBAC, Agile/Scrum

PROFESSIONAL EXPERIENCE

Full-Stack Engineer | Kudicore

2024 – Present

- Build scalable APIs using Node.js/Express and Laravel for fintech applications
- Apply Eloquent ORM and TypeScript for clean, maintainable codebases
- Maintain CI/CD pipelines ensuring smooth deployments across environments

Full-Stack Engineer | MSSPACE

2024

- Created responsive, visually appealing UIs with Tailwind CSS and React.js
- Implemented role-based access control (RBAC) for secure user/admin workflows
- Integrated third-party services including payment gateways and notification systems

Full-Stack Engineer | Motor Africa

2022 – 2024

- Built dynamic, reusable React.js components enhancing UX across multiple SaaS platforms
- Designed and implemented secure REST APIs in Laravel supporting real-time data fetching
- Optimized database queries and API integrations, reducing response times by 40%
- Refactored legacy codebases to improve performance and maintainability
- Collaborated with cross-functional teams to design scalable backend solutions

Full-Stack Developer & Trainer | Bizmarrow Technologies

2020 – 2021

- Researched emerging web technologies and recommended system improvements
- Trained clients on modern web development practices and tools

ICT Trainer | HIIT

2021

- Conducted training sessions on web development fundamentals

Corp Member (IT) | ECWA Theological College, Kano

2019 – 2020

- Managed computer equipment and provided technical support during NYSC service year

Junior Web Developer (Intern) | Quanteq Technology Services

2015 – 2016

- Wrote clean, reusable code and updated web content for client projects
- Participated in web development training classes for clients

EDUCATION

Bachelor of Science in Computer Science

Federal University Lokoja, Kogi State

Second Class Upper Division | Graduated 2019

FEATURED PROJECTS

- <https://naijamart.com/> - An e-commerce platform built with Laravel, enabling seamless online shopping and product management.
- <https://learnx.africa/> - An e-learning platform developed using Next.js and Laravel, providing interactive courses and learning management.
- <https://brandroom.io/> - A responsive website built with HTML, CSS, and Bootstrap, showcasing brand portfolios and creative content.
- <https://motorafrica.co/> - A mobility management system using Laravel, tracking cars,

drivers, and real-time vehicle analytics for operational efficiency.

- <https://www.msspaceglobal.com/> - A certification body platform developed with Next.js, streamlining certification and credential management.
- <https://sandbp.net/> - A certification body portal built with Laravel, enabling secure document and certification workflows.
- <https://grosolar.co/> - A fintech platform using Next.js and Node.js, facilitating solar energy financing, loan disbursement and payment solutions.
- <https://primeprogressng.com/> - A blog platform developed with Laravel, providing content publishing and management features.

KEY ACHIEVEMENTS

- Boosted API performance by 40% by refactoring critical endpoints, optimizing database queries, and implementing caching strategies, resulting in lightning-fast user experiences.
- Mentored 5+ junior developers and instituted rigorous code review processes, increasing team productivity by 30% and ensuring top-tier code quality across projects.
- Delivered 10+ full-stack applications across fintech, e-commerce, and healthcare, leveraging modern frameworks like React, Node.js, and PostgreSQL to drive measurable business impact.
- Designed and implemented secure authentication & RBAC systems, safeguarding sensitive data across multiple platforms while ensuring seamless user access and compliance standards.
